SELECTMEN'S REPORT

To the voters of the Town of Colebrook:

You will find the usual statistical report of the Town's business for the past year in this current Town Report. We feel that it might be to the general welfare of the Town if we pointed out some of the ways and means that we believe could result in improvement in the conduct of the Town's business. Also some of the articles in the warrant that we believe should be given your earnest and favorable consideration.

Last year's warrant was in excess of $100,000 of which about one half went for the support of schools. Therefore it is very evident we should all take much more interest in our school meetings than we have in the past.

The expenditures of money by the Town has been going up for years but we are still trying to conduct the town's business in the same manner as precedent established years ago when our expenditure of money was only a fraction of what it is today.

We don't believe a proper check of our Town's business is being maintained under our present system. The Selectmen are busy men with their own affairs and put a great deal of time into Town business at a personal sacrifice but still do not have the time to supervise all expenditures properly. We find the Town spending more and more money and seemingly getting less in return.

This year you have an article in the warrant asking the appointment of a committee to gather all the information possible in regard to the results obtained in towns under the Town Manager plan. This committee to report at our Town meeting in March 1949. We believe the Town Manager plan has very definite possibilities as being to the best interest of

the Town. In the meantime we believe much could be done in way of improvement if one of the selectmen had the time to put in and was paid to supervise all work done by the town.

The Article asking for appropriation of money to purchase a heavy truck and plow for the plowing of roads should in the long run cost the town less than the purchase of light equipment that results in heavy repair costs. If light equipment is used it should be used only two seasons and then turned in for new.

The Article in regard to a grader is very necessary as the old grader will cost too much to repair and try to use.

The Article in regard to a year round recreational man to be the schools athletic director should certainly have your support if the school approves the plan at their annual meeting.

REPORT OF HEALTH OFFICER

The general health of the community has been very good this year. There were no epidemics and only a few sporadic cases of whooping cough, chicken-pox and German measles reported.

We are very fortunate to have a new pasteurization plant in town. I hope with pasteurized milk available that we shall not have any more cases of undulant fever. There was not a single case reported in 1947.

There are still a few sewers to be changed as soon as funds are available.

Respectfully submitted

MERTDUDE D. NORRIS, M.D.

AUDITORS' REPORT

This is to certify that we have audited the records of the Tax Collector for the current year, and find all taxes accounted for. We have checked the revenue received from the Town Clerk for motor vehicle permits and dog licenses. The Selectmen's orders and receipts were checked with the vouchers, and the Treasurer's cash book were found correct. The Treasurer's balance in the Farmers & Traders National Bank was reconciled with the Selectmen's cash book balance and found correct.

FOREST FIRE PROBLEM SERIOUS

The year 1947 was one of the worst periods of drought and forest fire occurrence in eastern United States history. Lack of water ruined crops, lowered water levels and dried up brooks everywhere. Three months of deficient rainfall and abnormally high temperatures resulted in many fires which were mostly well controlled and kept within bounds. Only the high winds beginning on October 23rd caused a few fires to escape beyond immediate control. These few fires resulted in burning some 15,000 acres and the loss of 63 or more buildings in four New Hampshire towns.

All October fires were costly. They burned deeply into the ground and required day and night patrol of large crews of men until the rains came late in October. Towns which escaped from serious fire might easily have been in the midst of the most serious conflagrations we had.

Governor Dale closed the woods effective at midnight of October 15th. With the blow-up of October 23rd, a second proclamation closed all back roads and authorized towns to inaugurate patrols. The

effect of this was to cut down subsequent fires for the rest of the dry period.

Local fire warden forces performed an admirable job to hold the more than 200 fires that occurred during this October period. Many men were taxed to the utmost as the emergency continued. To them and all those who did their work, the people of New Hampshire owe a debt of gratitude. The state forest fire control agency based on local town wardens and town crews wherever adequately equipped rose to the occasion and met the test in whatever town their services were needed.

It is now time to take stock everywhere of our fire fighting facilities for the season ahead and to make them adequate where necessary. To this end town fire plans and training programs for wardens, deputies and other key men in each district are being arranged or in progress. If equipment and tools are insufficient properly to equip the available man power in each community with the right tools for the job, they should be provided for at once. The yearly addition of fire tools to the towns supply will generally need to be built up. The state sells tools to the towns and shares one-half their cost. Good equipment is important and can help greatly to keep both damage and fire costs at a minimum.

For many years we have requested our wardens not to issue burning permits except on rainy days. This regulation will be in effect again this year as it is one of the best means of assuring such fires from getting out of control. Nine out of every ten fires can be prevented, 98 percent of all fires being due to human carelessness. Be sure to get a permit for any fire in or near woodland when the ground is free from snow. Be sure your fires are always out before you leave them. Help us in getting the travelling public to keep from throwing out lighted matches or cigarettes. Be careful of all fires in or near woodland.

HAROLD B. CHASE
District Chief
